## COUNTY FUNDS \$20,000 BEHIND

TREASURY OVERDRAWN THAT  
MUCH AND 25 BRIDGES OUT.

## MAY ASK VOTERS TO FLOAT BONDS

Carrying \$9,000 Over From Last Year  
Causes Shortage But 200 Have  
Been Built in 1915.

Nodaway county is overdrawn about \$20,000 now; more than twenty-five bridges are out over the county and the roads are in bad shape.

What is the county court to do about the situation? The need for new bridges in some localities is pressing. It is not the fault of the present county court or any one previous one but warrants have been left over year by year until the present deficit is faced on account of floods and the fund being insufficient for the needs of the county.

Many warrants of last year are still being held out and it will take all of next year's bridge fund, the collection of which starts November 1, to pay the overdrawn warrants in the county treasurer's office. In other words, the court will have no money with which to start next year's bridge work.

The county court has a bridge fund of about \$26,000 with which to work each year. Outstanding warrants were carried over from last year, totaling \$9,000. Counting this amount and \$12,000 in warrants which have been allowed, the court has spent about \$21,000 already for bridges this year but several large bills have not been allowed yet so that when all warrants are paid, between \$2,500 and \$3,000 will be left in the budget but not in the treasury.

About 200 bridges have been repaired or replaced this year with that \$21,000. Of these only two, one near Clearmont and the other near Burlington Junction have been built of new material altogether. Parts of the old bridge were used in the others.

In many cases too, the court merely furnished the material to townships or local associations and they did the work. The average cost of the bridges put in this year has been \$500. The new bridge at Clearmont cost \$2,600. It is one of the largest which it is necessary to put in in Nodaway county.

A Burlington Junction delegation has been before the court asking for a new bridge over the new channel of the Nodaway river. But aside from not having the money, the court believes that the need for the bridge is not pressing as one has been put across the new channel only a half mile north of the proposed location.

Two mail routes cross that road, however, and it is a main road into that town. The bridge was washed away three weeks ago. The shortage of funds revealed to the delegation has revived the agitation for a bond election and it is probable that the county court will be asked sometime this month to call such an election.

The issue would be for \$100,000 and would be used for both road and bridge improvements. Such an election was agitated at a meeting in Maryville last summer of good roads enthusiasts to the court but the election was not granted.

The court held at that time that the bonds would not carry. Since that time heavy rains have been almost continuous and the roads are in such bad shape and so many bridges are out that it is believed that such an issue would carry now. The court will probably grant an appeal for an election if it is made.

Many of the men from Burlington Junction took petition blanks home with them and expect to urge such an election. The men, among whom were B. Zarn, William Davis, Walter Mendenhall, J. W. Pratswater, C. T. Ferguson, Frank McMackin, James Spangler, John A. Tibbetts, E. A. Humphrey,

George Race, W. C. Maines, D. T. Shelton, Guy Shelton and E. A. McAtee, offered to raise the interest if the court would put in the bridge near Burlington Junction and carry the warrants over until next year but the court refused.

## FOR SEPARATE MAINTENANCE

Myrtle vs. Charles J. Taylor in Next Term of Court and Damage Suit for Alienation of Affections.

Two suits filed today in the circuit clerk's office for the next term of court were Myrtle Taylor vs. Charles J. Taylor for separate maintenance, and Myrtle Taylor vs. Noble John Taylor and Sarah Taylor for damages.

In the first case, the plaintiff, according to her petition, states that she was married to Taylor in Maryville November 12, 1914, and lived together in this county until September 27, 1915, when he refused to provide plaintiff with a home or any kind of support or maintenance. The petition says the defendant is worth about \$18,000 and that the plaintiff has no money or means. The plaintiff prays for a maintenance allowance of \$50 a month, attorney fees of \$250 and to prepare and procure witnesses at her trial \$150.

In the second suit, Mrs. Taylor is asking for \$15,000 damages as she claims the defendants, Noble John Taylor and Sarah Taylor, alienated the affections of her husband by speaking untruthfully about her. Frank Wisdom of Bedford, is the attorney for the plaintiff.

## STANDARD IMPROVES

\$4,000 IN NEW BUILDINGS BEING  
ADDED TO OIL PLANT.

## ANOTHER MAN EMPLOYED

Otis Shippy Will Be Helper to C. H. McCullough After Oct. 15.—Old Structures Removed.

New buildings and improvements to the value of \$4,000 are being added to the plant of the Standard Oil Company a block north of the Wabash freight depot. The old barn has been removed and the foundations for a new barn and wagon shelter are in.

A new warehouse and pumping plant is almost ready for the finishing work. It is 20x28 feet and probably will contain an electrically operated pumping system as well as the latest equipment in storage and loading facilities.

The barn is 30x30 and is to be built to accommodate eight horses. Three teams will be used after October 15 and another man is to be added to the force. Otis Shippy has been employed as helper to C. H. McCullough, agent for the company in Maryville and manager of the plant.

In addition to the best of oil handling equipment, advantage is being taken of the repairs to add all modern improvements of light, water and sewers to the system. No new tanks will be added at this time but the increased business indicates that more capacity will be needed before many months.

## LEAVES BIG ESTATE

WILL OF LATE HORACE JONES  
FILED IN PROBATE TODAY.

## WORTH ABOUT A MILLION

The Biggest Estate Ever Admitted to  
Probate in This County—Over  
6,000 Acres Near Parnell.

The will of the late Horace Jones of Parnell, who died last Friday, was filed in probate court today. This is perhaps three times the largest estate ever admitted to probate in Nodaway county and it is estimated by those in close touch with Mr. Jones and his business affairs that the estate will foot up not less than a million dollars. It consists of a little over six thousand acres of land in Nodaway and Worth counties, his \$25,000 home and numerous houses in Parnell, besides live stock and notes and mortgages.

The will was written June 12, 1915, and was prepared by the Farmers Trust Company of this city, and witnessed by W. C. Pierce and H. H. Allen. He gives to his wife absolutely 400 acres of land in Nodaway county, and his household goods and kitchen furniture and all of his horses. He also gives her the use of the home in Parnell for life and a life estate in 800 acres of land in Worth county. The remainder of the land is divided equally, giving to each one of his four children, Edward H. Jones, Mattie C. Felton, Bessie M. Breit, and Benjamin A. Jones, approximately 1,200 acres for life with the remainder to their children. After the death of the wife the 800 acres of land in Worth county given to her for life is to be divided among the four children giving each one of them approximately 200 acres for life with the remainder, after their death, to their children. All the rest of the property is divided equally between the widow and four children.

The will also provides that if any of the sons or daughters die before their present wife or husband, then the wife or husband as the case may be, shall have a life estate in 200 acres of land.

Mrs. Julia L. Jones was named as executrix of the estate.

## WILSON, SUFFRAGIST

PRESIDENT TAKES STAND IN FA-  
VOR OF "VOTES FOR WOMEN."

## BUT AS PRIVATE CITIZEN

Says States Should Decide But Hopes  
New Jersey Will Adopt It.—  
Wildest Enthusiasm.

## Special to The Democrat-Forum.

Washington, October 6.—President Woodrow Wilson took a definite stand in favor of equal suffrage in a statement made public here this morning in which he said that he would vote for the amendment to the constitution of New Jersey granting the ballot to women.

"I believe that the time has now come," the President said, "to extend the full privileges and responsibilities of citizenship to the women. Woman has shown her fitness and capability for exercising that right and I believe that New Jersey will be greatly benefited by the adoption of the amendment."

The chief executive made it plain, however, that in casting his vote for equal suffrage he did so as a private citizen and not as the leader of the Democratic party or as the President of the United States.

He took occasion to reiterate his belief that the question should be settled by a vote of the individual states and should not be made a national issue, particularly a national party issue.

Joseph P. Tumulty, private secretary of the President, and three members of the cabinet have already taken a similar stand. Mr. Tumulty and Secretary of War Garrison have announced that they will vote for equal suffrage in New Jersey. Secretary Redfield of the department of Commerce and Labor and W. G. McAdoo, Secretary of the Treasury and son-in-law of President Wilson will vote for the woman's suffrage amendment in New York this fall.

The announcement that the President had taken a public stand for the "cause" was received with the wildest enthusiasm by the suffragists in New Jersey and in the other three eastern states, New York, Massachusetts and Pennsylvania, where the issue will be voted upon this fall.

Prominent leaders of the equal suffrage cause here, after the first flush of exultation, expressed their belief that the opinion of the President made it very probable that the measures would be carried in each of the eastern states in which it is to be voted upon.

## CABINET RESIGNS TO GREEK KING

MINISTRY AND PEOPLE FOR AL-  
LIES, RULER FOR GERMANY.

## QUEEN IS A SISTER OF KAISER WILHELM

Populace Greeted French Soldiers With  
Cheers at Salonika.—Balkan War  
Imminent.

## Special to The Democrat-Forum.

Athens, Oct. 6.—The resignation of the Greek cabinet was announced in the chamber of deputies here this morning by Premier Venizeelos. Differences with King Constantine was given as the cause.

The deputies suspended their sittings at once to await the formation of a new ministry. The Premier explained that the cabinet found it impossible even to meet the King's wishes after the program was announced and therefore all tendered their resignations.

The Venizeelos cabinet strongly favored entering the war on the side of the Allies. They insisted also that the treaty with Serbia by which Greece is to come to her aid if attacked by Bulgaria should be adhered to. The Queen of Greece is a sister of the Kaiser and naturally pro-German. It is believed that she has influenced the King, her husband.

The landing of the forces of the Allies, 18,000 strong, at Salonika, was greeted with cheers by the people. A force of 60,000 more will be landed soon and it is believed that war in the Balkans cannot be delayed long.

The break of the cabinet with the King shows that Greece is divided on the war question. Roumania has refused to put her army on a war footing and will probably remain neutral. Bulgaria is fully prepared to enter the war. The recent German victories over the Russians are having a strong influence among the frontier nations of the Balkans especially.

The King announced this morning that he had accepted all the resignations. The Premier made an impassioned speech in the chamber of deputies, supporting the position of his cabinet and his own policy.

"A great nation may repudiate a treaty and call it a 'scrap of paper,' with impunity," said Venizeelos, "but it is national suicide for a small nation to have such affront. The opposition press has sold its honor to German propagandists."

The chamber of deputies expressed its confidence in the premier and his cabinet yesterday by 142 to 102. Bitter speeches and plain speaking followed the announcement and the chamber remained in session until 4:30 this morning. It was charged repeatedly that the premier was leading the country to war needlessly.

Later dispatches from Bucharest say that Roumanian troops have been sent to the Bulgarian frontier and that all the forts along the Danube are being strengthened.

### GIRLS! GIRLS! TRY IT! STOP DAN- DRUFF AND BEAUTIFY YOUR HAIR.

Hair Stops Falling Out and Gets Thick Wavy, Strong and Beautiful.

Your hair becomes light, wavy, flut- ty, abundant and appears as soft, lus- trous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itch- ing and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Knowl- ton's Danderine from any druggist or toilet counter, and just try it.

## COUNTY FUNDS \$20,000 BEHIND

TREASURY OVERDRAWN THAT  
MUCH AND 25 BRIDGES OUT.

## MAY ASK VOTERS TO FLOAT BONDS

Carrying \$9,000 Over From Last Year  
Causes Shortage But 200 Have  
Been Built In 1915.

Nodaway county is overdrawn about \$20,000 now; more than twenty-five bridges are out over the county and the roads are in bad shape.

What is the county court to do about the situation? The need for new bridges in some localities is pressing. It is not the fault of the present county court or any one previous one but warrants have been left over year by year until the present deficit is faced on account of floods and the fund being insufficient for the needs of the county.

Many warrants of last year are still being held out and it will take all of next year's bridge fund, the collection of which starts November 1, to pay the overdrawn warrants in the county treasurer's office. In other words, the court will have no money with which to start next year's bridge work.

The county court has a bridge fund of about \$26,000 with which to work each year. Outstanding warrants were carried over from last year, totaling \$9,000. Counting this amount and \$12,000 in warrants which have been allowed, the court has spent about \$21,000 already for bridges this year but several large bills have not been allowed yet so that when all warrants are paid, between \$2,500 and \$3,000 will be left in the budget but not in the treasury.

About 200 bridges have been repaired or replaced this year with that \$21,000. Of these only two, one near Clearmont and the other near Burlington Junction have been built of new material altogether. Parts of the old bridge were used in the others.

In many cases too, the court merely furnished the material to townships or local associations and they did the work. The average cost of the bridges put in this year has been \$500. The new bridge at Clearmont cost \$2,600. It is one of the largest which it is necessary to put in in Nodaway county.

A Burlington Junction delegation has been before the court asking for a new bridge over the new channel of the Nodaway river. But aside from not having the money, the court believes that the need for the bridge is not pressing as one has been put across the new channel only a half mile north of the proposed location.

Two mail routes cross that road, however, and it is a main road into that town. The bridge was washed away three weeks ago. The shortage of funds revealed to the delegation has revived the agitation for a bond election and it is probable that the county court will be asked sometime this month to call such an election.

The issue would be for \$100,000 and would be used for both road and bridge improvements. Such an election was agitated at a meeting in Maryville last summer of good roads enthusiasts to the court but the election was not granted.

The court held at that time that the bonds would not carry. Since that time heavy rains have been almost continuous and the roads are in such bad shape and so many bridges are out that it is believed that such an issue would carry now. The court will probably grant an appeal for an election if it is made.

Many of the men from Burlington Junction took petition blanks home with them and expect to urge such an election. The men, among whom were B. Zarn, William Davis, Walter Mendenhall, J. W. Frazeewater, C. T. Ferguson, Frank McMackin, James Spangler, John A. Tibbetts, E. A. Humphrey,

George Race, W. C. Maines, D. T. Shelton, Guy Shelton and E. A. McAtee, offered to raise the interest if the court would put in the bridge near Burlington Junction and carry the warrants over until next year but the court refused.

## FOR SEPARATE MAINTENANCE

Myrtle vs. Charles J. Taylor in Next Term of Court and Damage Suit for Alienation of Affections.

Two suits filed today in the circuit clerk's office for the next term of court were Myrtle Taylor vs. Charles J. Taylor for separate maintenance, and Myrtle Taylor vs. Noble John Taylor and Sarah Taylor for damages.

In the first case, the plaintiff, according to her petition, states that she was married to Taylor in Maryville November 12, 1914, and lived together in this county until September 27, 1915, when he refused to provide plaintiff with a home or any kind of support or maintenance. The petition says the defendant is worth about \$18,000 and that the plaintiff has no money or means. The plaintiff prays for a maintenance allowance of \$50 a month, attorney fees of \$250 and to prepare and procure witnesses at her trial \$150.

In the second suit, Mrs. Taylor is asking for \$15,000 damages as she claims the defendants, Noble John Taylor and Sarah Taylor, alienated the affections of her husband by speaking untruthfully about her. Frank Windom of Bedford, is the attorney for the plaintiff.

## STANDARD IMPROVES

\$4,000 IN NEW BUILDINGS BEING  
ADDED TO OIL PLANT.

## ANOTHER MAN EMPLOYED

Otis Shipp's Will Be Helper to C. H. McCullough After Oct. 15.—Old Structures Removed.

New buildings and improvements to the value of \$4,000 are being added to the plant of the Standard Oil Company a block north of the Wabash freight depot. The old barn has been removed and the foundations for a new barn and wagon shelter are in.

A new warehouse and pumping plant is almost ready for the finishing work. It is 20x28 feet and probably will contain an electrically operated pumping system as well as the latest equipment in storage and loading facilities.

The barn is 30x30 and is to be built to accommodate eight horses. Three teams will be used after October 15 and another man is to be added to the force. Otis Shipp has been employed as helper to C. H. McCullough, agent for the company in Maryville and manager of the plant.

In addition to the best of oil handling equipment, advantage is being taken of the repairs to add all modern improvements of light, water and sewers to the system. No new tanks will be added at this time but the increased business indicates that more capacity will be needed before many months.

## LEAVES BIG ESTATE

WILL OF LATE HORACE JONES  
FILED IN PROBATE TODAY.

## WORTH ABOUT A MILLION

The Biggest Estate Ever Admitted to Probate in This County—Over 6,000 Acres Near Parnell.

The will of the late Horace Jones of Parnell, who died last Friday, was filed in probate court today. This is perhaps three times the largest estate ever admitted to probate in Nodaway county and it is estimated by those in close touch with Mr. Jones and his business affairs that the estate will foot up not less than a million dollars. It consists of a little over six thousand acres of land in Nodaway and Worth counties, his \$25,000 home and numerous houses in Parnell, besides live stock and notes and mortgages.

The will was written June 12, 1915, and was prepared by the Farmers Trust Company of this city, and witnessed by W. C. Pierce and H. H. Allen. He gives to his wife absolutely 400 acres of land in Nodaway county, and his household goods and kitchen furniture and all of his horses. He also gives her the use of the home in Parnell for life and a life estate in 800 acres of land in Worth county. The remainder of the land is divided equally, giving to each one of his four children, Edward H. Jones, Mattie C. Felton, Bessie M. Breit, and Benjamin A. Jones, approximately 1,200 acres for life with the remainder to their children. After the death of the wife the 800 acres of land in Worth county given to her for life is to be divided among the four children giving each one of them approximately 200 acres for life with the remainder, after their death, to their children. All the rest of the property is divided equally between the widow and four children.

The will also provides that if any of the sons or daughters die before their present wife or husband, then the wife or husband as the case may be, shall have a life estate in 200 acres of land.

Mrs. Julia L. Jones was named as executrix of the estate.

## WILSON, SUFFRAGIST

PRESIDENT TAKES STAND IN FAVOR OF "VOTES FOR WOMEN."

## BUT AS PRIVATE CITIZEN

Says States Should Decide But Hopes New Jersey Will Adopt It.—Wildest Enthusiasm.

Special to The Democrat-Forum.

Washington, October 6.—President Woodrow Wilson took a definite stand in favor of equal suffrage in a statement made public here this morning in which he said that he would vote for the amendment to the constitution of New Jersey granting the ballot to women.

"I believe that the time has now come," the President said, "to extend the full privileges and responsibilities of citizenship to the women. Woman has shown her fitness and capability for exercising that right and I believe that New Jersey will be greatly benefited by the adoption of the amendment."

The chief executive made it plain, however, that in casting his vote for equal suffrage he did so as a private citizen and not as the leader of the Democratic party or as the President of the United States.

He took occasion to reiterate his belief that the question should be settled by a vote of the individual states and should not be made a national issue, particularly a national party issue.

Joseph P. Tumulty, private secretary of the President, and three members of the cabinet have already taken a similar stand. Mr. Tumulty and Secretary of War Garrison have announced that they will vote for equal suffrage in New Jersey. Secretary Redfield of the department of Commerce and Labor and W. G. McAdoo, Secretary of the Treasury and son-in-law of President Wilson will vote for the woman's suffrage amendment in New York this fall.

The announcement that the President had taken a public stand for the "cause" was received with the wildest enthusiasm by the suffragists in New Jersey and in the other three eastern states, New York, Massachusetts and Pennsylvania, where the issue will be voted upon this fall.

Prominent leaders of the equal suffrage cause here, after the first flush of exultation, expressed their belief that the opinion of the President made it very probable that the measures would be carried in each of the eastern states in which it is to be voted upon.

## CABINET RESIGNS TO GREEK KING

MINISTRY AND PEOPLE FOR ALLIES, RULER FOR GERMANY.

## QUEEN IS A SISTER OF KAISER WILHELM

Populace Greeted French Soldiers With Cheers at Salonika.—Balkan War Imminent.

Special to The Democrat-Forum.

Athens, Oct. 6.—The resignation of the Greek cabinet was announced in the chamber of deputies here this morning by Premier Venizeelos. Differences with King Constantine was given as the cause.

The deputies suspended their sittings at once to await the formation of a new ministry. The Premier explained that the cabinet found it impossible even to meet the King's wishes after the program was announced and therefore all tendered their resignations.

The Venizeelos cabinet strongly favored entering the war on the side of the Allies. They insisted also that the treaty with Serbia by which Greece is to come to her aid if attacked by Bulgaria should be adhered to. The Queen of Greece is a sister of the Kaiser and naturally pro-German. It is believed that she has influenced the King, her husband.

The landing of the forces of the Allies, 18,000 strong, at Salonika, was greeted with cheers by the people. A force of 60,000 more will be landed soon and it is believed that war in the Balkans cannot be delayed long.

The break of the cabinet with the King shows that Greece is divided on the war question. Roumania has refused to put her army on a war footing and will probably remain neutral. Bulgaria is fully prepared to enter the war. The recent German victories over the Russians are having a strong influence among the frontier nations of the Balkans especially.

The King announced this morning that he had accepted all the resignations. The Premier made an impassioned speech in the chamber of deputies, supporting the position of his cabinet and his own policy.

"A great nation may repudiate a treaty and call it a 'scrap of paper,' with impunity," said Venizeelos, "but it is national suicide for a small nation to have such affront. The opposition press has sold its honor to German propagandists."

The chamber of deputies expressed its confidence in the premier and his cabinet yesterday by 142 to 102. Bitter speeches and plain speaking followed the announcement and the chamber remained in session until 4:30 this morning. It was charged repeatedly that the premier was leading the country to war needlessly.

Later dispatches from Bucharest say that Roumanian troops have been sent to the Bulgarian frontier and that all the forts along the Danube are being strengthened.

### Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Germany is getting to be a regular correspondent of Uncle Sam's.

Apples are good and plentiful this year. It is a good time therefore to "eat apples and save medicine."

Despise not the plumber. You will be begging him to come and see you pretty soon.

Missouri has used less beer this summer but she has also used less ice and fewer summer suits.

Several meetings similar to that held in St. Joseph are being planned. Missouri democrats seem to be active in spite of an apathetic state committee.

If money making was as popular with young men as with older ones, more of them would be riding corn planters instead of automobiles.

Walter Dickey has decided to become a candidate for the republican nomination for United States senator. Ex-Gov. Hadley is still looking for health and encouragement before he makes an announcement.

Owing to the shortage of dye stuffs, it is feared that our girls will have to get along without red and green stockings. The new anklet may in some measure compensate for the loss. Anyway we leave it to native ingenuity.

Merchants and advertisers are invited to come into the Democrat-Forum's press room any day without sending word and count the papers printed, if they like, but they must have time to stay awhile. The Democrat-Forum has the fastest newspaper press in this part of the state but it takes a lot of time to run off the edition even at that.

### M. I. Circle.

"Missouri—the pride of the west" was the topic of a very interesting program given yesterday afternoon by the M. I. Circle at a meeting held at the home of Mrs. Walter Mutz. The meeting was opened by devotions conducted by Mrs. C. B. Roberts and the roll call responses were quotations from Mark Twain. Two papers held over from a previous meeting were read. One was on "Alaska and the Frozen North" given by Mrs. Eugene Ogden and the other on "Porto Rico," given by Mrs. Robert Lytle. The remainder of the program was devoted entirely to Missouri and her industries. During the business session, Mrs. L. R. Holt was chosen delegate to the

### Carefully Treat Children's Colds

Neglect of children's colds often lays the foundation of serious lung trouble. On the other hand, it is harmful to continually dose delicate little stomachs with internal medicines or to keep the children always indoors.

Plenty of fresh air in the bedroom and a good application of Vick's "Vap-O-Rub" Salve over the throat and chest at the first sign of trouble, will keep the little chaps free from colds without injuring their digestions. 25c, 50c, or \$1.00

## WINNING MANY PRIZES.

The Caldwell Herd of Aberdeen-Angus Cattle at American Royal Show in Kansas City.

C. D. and E. F. Caldwell of Burlington Junction, are winning many prizes at the American Royal Show at Kansas City this week on their Aberdeen-

Angus herd. On Monday, they won first in the aged bull class on Importer Evreux of Harvestown; first in the two-year-old bulls class on Blackcap Star; first and third in the senior yearling bulls class on Blackcap Bertram and Blackcap Star 2d; first and fifth in the junior yearling bulls class on Everytime and Quetif; sixth in the senior bull calves class on Baronial; and second in the junior bull calves class on Epistos.

The Kansas City Drovers Telegram says: A bull from Scotland, and more recently from Canada, which had been imported at a cost of \$4,500, stood ahead of the class of six aged Aberdeen-Angus bulls in the Royal yesterday. The winning bull was imported Evreux of Harvestown, owned by C. D. and E. F. Caldwell of Burlington Junction, Mo. The Caldwells bought this bull in Canada a short time ago for the express purpose of winning the senior championship at San Francisco. Their judgment has thus far been vindicated, because Evreux of Harvestown stood first and was senior champion at the Missouri state fair last week and was again first in his class at the American Royal. Some of the best Aberdeen-Angus aged bulls on the road were in that competition yesterday.

## QUEER SANITATION PARADE.

Huge Fly Drags Empty Baby Buggies at Fredonia.

Topeka, Oct. 6.—Unique in the annals of Kansas' queer capers was the first and only sanitation parade at Fredonia, yesterday, to mark the end of the sanitation survey conducted by state and federal officers.

The parade was in five sections. A governor, United States senators and congressmen, county and city officials, health officers, undertakers, infantry, commercial clubs, brass bands, twenty-six floats were in line. Included was a procession of undertakers, clad in deep mourning, at the coming of sanitation and its attendant decrease in the death rate.

One thousand five hundred school children, a huge fly, dragging in its wake thirteen empty baby buggies, a float mounted by a skeleton on a carpet of dead infants, life sized dolls shrouded and an auto truck filled with live, healthy infants and their mothers were among the principal features and nine counties, besides state and federal officials were represented.

Mr. E. E. Williams, Maryville, Mo.

Dear Sir: The late president of the Croton River bank at Brewster, N. Y., built the finest house in all that region in 1884, and painted it with lead-and-oil at a cost of \$400—the house cost \$31,000.

In 1887—three years—he repainted it with Devco at a cost of \$350. In 1897 this paint was in good condition.

Lead-and-oil, \$400, three years. Devco \$350, ten years.

## DON'T ABUSE SIGNS.

Frank W. Buffum, Highway Commissioner, Asks Hunters to Use other Targets.

A letter from Frank W. Buffum, state highway commissioner, was received yesterday by county clerk, Fred Yeomans, in which mention is made of the abuse which is made of highway signs by hunters and by persons throwing rocks.

Mr. Buffum says that many complaints are coming to his office telling of directions so mutilated that it was impossible to get the direction. It is suggested that rural teachers especially be asked to tell their children of the inconvenience to which motorists are put by not being able to read signs readily or not at all.

## NAVAL ADVISORY BOARD MEETS.

Twenty-Three Experts Confer With the President and Secretary Daniels. Special to The Democrat-Forum.

Washington, Oct. 6.—The first meeting of the board of twenty-three scientists and inventors who have consented to act as an advisory committee to Secretary of the Navy Daniels and to President Wilson in their preparations for national defense, was held today.

The problems as outlined by Daniels were the successful repelling of submarines by warships, and the perfecting of motors for both submarines and airships. The scientists said that President Wilson told them that the whole nation conceded that we must be adequately prepared for defense.

The President said that we are well prepared and his spirit is hopeful but that we must also command the respect of the world.

## MAY RAIN ON WORLD'S SERIES.

Weather Bureau Says First Two Games Will Be Prevented.

Philadelphia, Oct. 6.—Baseball fans were given a sad disappointment when the weather bureau announced this morning that both of the first two games of the World's Series in baseball which are to be played in this city Friday and Saturday, will probably be prevented by rain.

A heavy rain pressure is sweeping east from the Mississippi valley and will concentrate in this district. Should clear up and remain clear all next week.

## WAH3, THE BEAR, SLAIN.

Grizzly Famous In Story Killed on Wyoming Ranch.

Cody, Wyo. — Wah3, the big bear made famous in stories by Ernest Seton Thompson, is dead. His long career was ended a few days ago by A. A. Anderson, who owns the ranch on which the animal lived. It was from Mr. Anderson's ranch that Mayer Mitchell of New York hunted bears last spring.

Mr. Anderson has killed four bears during the summer, all on his own ranch. For years it has been the desire of Mr. Anderson to kill Wah3, but the animal always succeeded in outwitting the hunters.

## NEWS OF SOCIETY AND WOMEN'S CLUBS

(Continued from page 3.)

About forty were in the crowd and they brought a contribution of over sixty quarts of jams, preserves and canned fruits. The evening was arranged as an entire surprise for Mrs. Perrin and Mrs. Oman. About a month ago, a table in the cellar at Perrin Hall, on which was placed a summer's canning of fruit, fell and all of the fruit was lost and the gifts of last night were to replace this supply. The evening was spent informally and a luncheon, which the guests also brought with them was served.

Go with the **Santa Fe Farmers' Special**

Spend two weeks in seeing California in connection with your visit to the two Expositions.

This tour is especially for rural folks and others interested. I want you to see the San Joaquin Valley and talk to the people about the greater production per acre, the balmy, healthful climate, the year-round growing season. You will be the guests of many communities in Southern California and San Joaquin Valley. You will be taken on auto trips to see their farms, orchards and homes. We have no land to sell. We just want you to see and know California.

Let me tell you at what small cost this trip will be made. We will live on our own special cars most of the time, so saving hotel bills. Go with us on the Santa Fe, stop a day at Grand Canyon and return Santa Fe or any direct route.

This party will leave Chicago October 14, reach San Francisco about October 30, and return from there at your pleasure up to December 31. You'll see rural California—as you could see it in no other way. You'll see the two great world expositions. Also you'll see the Grand Canyon of Arizona.

Make reservations promptly, to insure getting space wanted—the time is short. Write me to-day for itinerary, particulars and rates.
